

Synergetic Roadshows

What you need to know to host!

Hosting in the Cloud:

We are now hosting our Training Roadshows in the cloud so attendees can bring their own devices to remotely connect into Synergetic test data. Hosting in the cloud removes the need for a host school to provide a lab environment, and have these events set up to go with test servers.

Room Requirements:

- Two rooms or spaces
- Room capacities of 10-20 people
- x2 data projectors – hi-res 1080p, 1920x1080, please call to discuss
- x2 whiteboards and markers
- 5-10 loan laptops for attendees if they cannot BYOD
- Variety of extension cords and power boards

Catering:

Synergetic will cover the cost of the catering for the duration of the event with your preferred caterer. We are happy to liaise directly with the caterers or you.

Training Discounts:

We're offering host schools a number of discounted training places that can be used throughout the courses at the Roadshow. Host schools will receive **one 50% discounted place per course run**.

Eg. If there are 10 courses run during the week, you can register up to 10 attendees who receive their training at 50% off the original rate of the course. Please note that if these discounts are not all used, they will be forfeited.

Host schools are welcome to have more attendees than the discounted places; each additional person will be charged at the 'additional attendee discount' rate.

If courses are cancelled due to low numbers, the discounted places are cancelled too.

Contact Information:

If you would like any further information regarding hosting a Synergetic Roadshow in your State or Country, please don't hesitate to contact Synergetic Training – we're more than happy to help!
